SECTION I. The Structure and Intent of Your Life.

There are four items of general interest that we want to take up here in Section I: A) Hemisphere and Quadrant Emphasis, B) Elements and Modes, C) The Ascendant and Midheaven, and D) The Conjunctions. These four categories give us an intelligent overview of how you structure personal experience and what you aim for in life. This general patterning gives us a context to understand the specific personal meaning of the material in Sections 2 through 11.

A. Hemisphere and Quadrant Emphasis

The different areas of life are laid out in the horoscope by spatial territories called houses. These areas of life show interests and general involvements for each person. These areas can be grouped together for a vast overview of most basic inclinations of the person. The most useful general groupings of houses is into hemispheres and quadrants. Emphasis in a hemisphere or quadrant shows a particularly strong focus toward life from that perspective.

1. Hemisphere

The horoscope can be split into 2 equal parts, either horizontally (giving us the upper and lower hemispheres) or vertically (giving us the right and left hemispheres). The Upper Hemisphere shows the outer, more extroverted side of the personality, the Lower Hemisphere shows the more introverted and hidden side of the personality. In the Left Hemisphere planets are rising and this shows action. In the Right Hemisphere planets are setting and this shows reaction.

Most Planets Above the Horizon

You have the majority of your planets above the horizon showing that you have a need for contact with the outer world in order to feel fulfilled each day. You enjoy projects, achieving and a sense of accomplishment. Success for its own sake is more important than what security it might present to you.

Most Planets Setting

You have the majority of your planets on the western half (or right-hand side) of your chart. Your natural tendency is to seek others' approval and to question the probable outcome of an action before putting your first efforts forward.

2. Quadrant

The two ways of splitting the horoscope into hemispheres can be applied simultaneously giving us four quadrants. The FIRST is called the quadrant of personality. The SECOND is called the quadrant of the environment. The THIRD is called the quadrant of relationship. The FOURTH is called the quadrant of service.

Most Planets in the Third Quadrant

You have the majority of your planets in the third quadrant. You desire to relate and will seek out experiences that bring you in contact with people and increase your scope of information of others. This is your primary motivation in all activities. You want physical, emotional, or intellectual contact with others. This is your primary vehicle of personal development.

B. Elements and Modes

The Elements and Modes show what we aim for in life. They show our broadest focus and in the most general sense, how we go about achieving our goals.

1. Elements

The four elements (fire, earth, air and water) are the most comprehensive inventory of the personality that we have. Everything in the universe including the human personality can be examined in terms of the four elements. FIRE is your basic enthusiastic urge, EARTH shows your concern for the material world, AIR is the element of abstract thought, WATER is your empathy impulse. Fire and earth are primitive and focus on the self. Air and water are derivative and focused on others. Fire and air are naturally extrovert, optimistic, active, and freedom oriented. Earth and water are basically introvert, pessimistic, passive, and security oriented.

Fire

You have no fire in your chart. Vitality and enthusiasm will never be problematic for you, nor will it be a focus. You may seem frail to others but when the time for activity arrives you have boundless energy. You remain a mystery to people around you even though they accept your peculiarities at face value.

Earth

You have an abundance of earth in your chart showing that you are a cautious and thorough person. You build material security in life. If, for any reason, this isn't happening you feel miserable. This can point to a problem of valuing the wrong things in life and chasing empty dreams. Ask yourself how much

you really need and let it go at that. You can be an earnest and hard working person if over-acquisitiveness doesn't blind you.

Air

You have a large volume of air in your chart. You are a true people person. You like connecting people with people, people with ideas, and ideas with ideas. You are interested in everything and may find yourself studying many subjects at once and taking great interest and pleasure in things other people find irrelevant. You may end up being very trivial in your perspective on life even though your scope of vision is vast. Still, others find you gregarious and pleasant. Avoid procrastinating on projects and chores. Gathering more data is no substitute for action. When your house, existing in this material plane, is on fire, don't collect more data, GET OUT.

Water

You have 20% of your chart in the water element. You work hard during this life to develop your emotions. You have lots of opportunity to work on your feelings. Your sense of emotional inadequacy drives you to express your feelings more. The outward appearance of caring substitutes for real concern while you are young; true empathy develops later in life.

2. Modes

The three modes are CARDINAL, FIXED, and MUTABLE. The modes of expression show how you act out your urges in the world. They represent your most basic responding mechanism toward all of life experience. The cardinal planets show direct expression in physical action, leadership ability and strength. The fixed mode planets in your chart show reaction, consistency,

persistence, endurance and stubbornness. The mutable planets in your chart show synthesis, blending, malleableness, thought, forethought, debate and wisdom. The following statements show the way the three modes manifest in your life.

Cardinal

You have an abundance of cardinal planets in your chart. You are very active. You are able to choose a direction and go your own way in life. You are stronger than most of the people you know and this gives you a natural desire for leadership. Be aware, you act impulsively and this can be either a strength or a weakness. Try to control your assertions so that you stay in harmony with your environment and you won't suffer from self-inflicted accidents or difficulties.

Fixed

You have 20% of your planets in the fixed mode. You don't have as much stick-to-itiveness as most people. Still, if circumstances require it, you can put forth great amounts of energy in a controlled way, treading water until new opportunities to act present themselves.

Mutable

You have 30% of your chart in the mutable mode. Adjustment to new circumstances is relatively easy for you. Part of your nature is very stimulated by change. You like to think about your experiences so as to accommodate any new information that occurs. This is not your only way of being but your favorite mode of operation can be reactive. Exposure to new ideas and methods can help you be calmer while still helping you maintain interest in life.

C. The Ascendant and Midheaven (Signs and Aspects)

1. The Ascendant

The ascendant is symbolic of our relationship to our immediate environment. This is the point rising in the east when we are born. One manifestation of our immediate environment is our physical body. The physical environment includes our body, our surroundings and our emotional and mental states. Thus, the ascendant tells us how our inner core expresses itself, and how we take in information from others and the universe generally. The sign rising in your horoscope tells us the type of energy you are processing, the type of physical body that you have for doing the processing and the natural inclinations you have in the personal arena in life. The planets in aspect to your ascendant tell us the kind of energy and stamina you have as natural allies in life. The ascendant is opposite the seventh house cusp (the place where we meet others and the world). This axis (ascendant–descendant) is how we clarify ourselves through relationships. Planets in aspect to this axis indicate the types of people and the types of relationships we seek as well as how and why we seek them.

SAGITTARIUS RISING

You are enthusiastic and inspiring. You learn from every situation and from every relationship in life. Sitting still and dying are almost the same thing to you: an opportunity to catch up on your sleep. Your natural mode of being is perpetual motion. You like to study. This may mean school, travel, or that you just have to spend time in the great outdoors. All of these circumstances create knowledge and motion for you. Relationships are an opportunity for you to teach someone else what you have learned if not learn more yourself. You have a deeply rooted perception that you can grow in a joyful way. This

belief that life doesn't have to be hard work makes you fun to be around. Many good things come to you easily in life because you expect them to happen. You need to be careful that your positive expectations don't become "short cuts" that have you starting over with nothing to show for your efforts. People often like you even when they can't understand you.

Moon Square the Ascendant

You express your feelings in a way that can lead to misunderstandings and arguments. Some of the misunderstanding comes from communication difficulties and some of it comes from being at odds with others emotionally. Your personal life can improve when you make allowances for emotional differences between people in your community of family, friends, and lovers. You make your mark on the public consciousness, but your conflict between what you are doing and what you think you are doing stops this from being consistently positive. You have conflicting needs. In order to move forward, you must be free to act, unencumbered by other people's judgments. You need to be connected to the thinking of those around you in order to see accurately where you are going. This conflict is real but resolvable through emotional balance and practice. Worry less about whether or not others understand your intentions. Don't let difficulties in your daily routines stop you from completing your obligations.

Mars Conjunct the Ascendant and in the 1st House and unafflicted.

You have energy plus. Some people appreciate your intensity, others are scared away or offended by it. When you apply your energy harmoniously with the circumstances of the situation, you are acknowledged for your usefulness. You have a special talent for knowing exactly how much energy is needed, when to assert yourself, and how. When you are angry (which happens for you

once in awhile) people you genuinely like can be alienated for keeps. Consequently, self control is very important for you. The more you learn positive self expression the more productive you are in life.

Saturn Sesquiquadrate the Ascendant

You have the experience of being the wrong person in the wrong place several times. Getting your rhythm in life to work for you doesn't mean working harder, it means working smarter. Your innate practicality and self-discipline eventually get you to your goals in life. The striving and learning for you revolve around learning to be consistent. This is helped by curbing your tendency to take on too much at once. Break life down into bite size pieces and recognize more clearly your limits. Learn to work with other people rather than around them. Overcoming your fear of others helps your sense of discipline and timing find their natural rhythm. You are shy and have a problem putting your best foot forward in life.

Pluto Square the Ascendant

Things don't always go as planned. Years of work can go down the drain in an emotional fit when the world doesn't live up to your expectations. You have great amounts of emotional energy and fortitude. You come into your own in life when this energy is controlled and directed in an intelligent manner. A certain vindictive streak does you harm and stops others from getting close to you until it is recognized and dealt with.

2. The Midheaven

The Midheaven is the high point in your chart. It indicates what you aspire for, what you see as your duty, and what authority and limits are about. Because of this basic meaning

the Midheaven indicates how you live out your social station and what you do for your career. The point opposite the Midheaven is the fourth house cusp, referred to as the nadir, which is the indication of our roots, our heritage. This axis (Midheaven-Nadir) indicates the way we grow in life. The sign on the Midheaven shows our basic energy and approach toward dealing with the world. Planets in aspect to the Midheaven show qualities of our inner being that we wish to contribute to the world and that we wish to be fulfilled through our interaction with the outer world.

LIBRA MIDHEAVEN

A certain evenhandedness goes into all decisions for you. You tend to relegate much of your responsibilities as you like to involve others in major projects and decisions in life. Your desire to do things correctly may lead to self-doubt and vacillation. Your aim is high. Your overview of life is quite comprehensive. Success always involves key relationships working out wholesomely.

Moon Quincunx the Midheaven

The ideals that you develop about yourself and the world will need constant reevaluation as you strive to put them into action. Your sensitivity to others can stop you from being able to act on your best insights until you make an uncompromising commitment to your true mission and purpose for being on the earth.

Venus Sextile Midheaven

You love a beautiful environment and are good at knowing how to find yourself in comfortable surroundings. You have a certain graciousness that helps you in any social situation.

Mars Sextile Midheaven

You like to be in control of any job or project that you work on. You can be a good leader because you inspire others. You know how to put plans into motion very swiftly and are good at spotting opportunity. You have a knack for being at the right place at the right time.

Neptune Semi-Sextile the Midheaven

You see a vision of culture that is different than the one you live in. Be patient with yourself and with the world. Your own private esthetic of life will sustain you when the harsher aspects of our culture are buffeting you about. In the long run, your picture of the way things can be, colors (ever so slightly) every project that you become involved with. This gives you a special place with others in any group project and others eventually recognize your true contributions.

Pluto Semi-Sextile the Midheaven

You are powerful, but your desire to express your authority is not always evenly matched to the circumstances of your real life. You may compensate in a long extended fantasy life. This can be enriching but, it is necessary for you to take real steps in the external world that lead toward a position of genuine authority and responsibility. Long periods of dormancy give way to rapid change, then back to a period of relative stagnation. Slow germination of ideas and energy can take place in your inner life (at an unconscious level) that abruptly erupts forward into life, carrying you forward toward your goal.

D. The Conjunctions.

A Conjunction occurs when two planets are in the same immediate area of the Zodiac. The conjunctions in your chart show central linkings of basic energies in your life. When one area (represented by a planet) expresses itself, it brings along the other area (represented by the other planet). When you are studying the rest of this printout of your life, keep in mind that linking of these energies is a central theme in your life and these areas should be studied together.

Uranus Conjunct Pluto

Think of Sections IX. URANUS – Your search for freedom, and XI. PLUTO –Your need for fundamental change, as operating together. This combination shows strength of purpose and drive for spontaneous creativity. This Conjunction is a central ingredient in your life.

SECTION II. The SUN - Your Ego Structure

The Sun is the center of the solar system. All life revolves around it within this sphere. In the same way, the ego is the center of personal identity and gives integration and continuity to individual experience. In this sense, it might be said that the Sun shows character. This is the fixed pillar at the center of the person around which all else circulates or revolves.

The sign placement of the Sun shows the center of the individual's basic character. The sign of the Sun is the most primary indicator of the forms of experience you are attracted to. Further, this most important placement shows how and why you are attracted to these experiences.

The house placement of the Sun sign shows the primary area of expression for the individual in life. There is a psychological, emotional, and physical significance to the house placement of the Sun. Aspects to the Sun show ways that the core of the personality are linked to other component elements in the individual's life. Aspects to the Sun have a deep and overriding significance in the life of the individual and are generally more important, more prominent than other aspects in the chart.

SUN IN LIBRA

You are a good negotiator and a natural diplomat, always seeking harmony and always seeing other people's point of view. You have a love of beauty, are inspired by ideals, and have an especially strong sense of justice. You want your surroundings to reflect your vision of the world which is oriented to beauty, harmony and balance. You are so friendly and so diplomatic that you may seem to lack resolve to others. You see infinite shades

of meaning to each issue and it appears as if you are inconsistent. Your life improves when you don't procrastinate and when you aren't afraid to tell people your point of view even when you know they don't want to hear it. Be more decisive.

Sun in 9th house

Your vision is lofty. You concentrate on the "big picture" and the far away seems more interesting than the close and familiar. You can be a good risk taker. Your energy and idealism can be quite an inspiration to those around you. When you are in your "people person" mode of operation your interests gravitate toward the outdoors, sports and competitive activities.

Sun in 9th house Unafflicted

You have a good sense for rapid advancement. You are a builder and know how to take advantage of opportunity. You are able to find ways of overcoming the limits of your environment and consequently will have some long distance communication and travel as part of your experience enhancement picture.

SUN IS IN HARD ASPECT TO YOUR MOON

You have a tendency to get in your own way. You have material and emotional needs that cut against the grain of what you try to accomplish for ego satisfaction. You have some real success in life but it can be short-lived or fluctuating until the time that you have eked out some reasonable compromise between your inner drives and your mechanisms and techniques for accomplishing your goals. When you have difficulty mastering sufficient physical vitality or enthusiasm for a goal you have chosen, it is time to get to the roots of the inner conflict that is stealing your energy.

SUN OPPOSITION YOUR MOON

Dynamic tension exists between energy and goals. You have difficulty accomplishing your objectives in life because of basic conflicts you have between your ego drives and your emotional needs. You will tend to live out one directly and to project the other onto someone else in your life.

SUN CONJUNCT MERCURY

You have a very close alignment between your mental skills and your ego. This can give you great depth of perception and great resolve. You need to be careful that you don't become dogmatic or develop "tunnel vision". When you become focused on one thing for a long time, you may suffer from nervous exhaustion. Learn to take breaks without losing your initiative.

SUN SEMI-SEXTILE VENUS

You have a charm, a beauty and an inclination to do good. You need to make sure that you don't become lazy and give up striving for the good after suffering some disappointments in life. The desire to nurture and your fascination with your own receptive qualities can put you in touch with many different types of people in life. Learn discrimination and your life is much more pleasant.

SUN IS IN HARD ASPECT TO YOUR MARS

You are energetic and brave but sometimes too impulsive or rash. You hurt yourself and others at times through outbursts of temper. You can back a losing cause at times, throwing good energy after bad. You do this because you view your goals

through a desire-incrusted lens which distorts your vision or because you mis-evaluate your own power, or both. You can guard against this tendency by learning to draw conclusions from all of life rather than just your own immediate wants. You are naturally powerful but need to guard against the tendency to run over others.

SUN SQUARE YOUR MARS

You are full of energy and passion. Your intensity and power color everything that you do. Planning and focus are very important because your goals switch and your desires are always changing. When you are angry, thoughts of revenge and general hate or avarice drag you into a pattern of destruction. Your energy stays productive when you acknowledge, then harness your desires.

SUN CONJUNCT URANUS

You are freedom-loving. You are original and independent. You look for unusual manners of expression and are drawn to experiences that bring out your inventiveness. When you act, you do so quickly, engaging your whole being. You have a deep willfulness and are capable of holding onto a point of view or a line of action against the odds, common sense, and logic; you may change your mind or direction in life, but nobody else will change it for you. When you do make a change you do so abruptly and there can be great upheaval in your life.

SUN IS IN SOFT ASPECT TO YOUR NEPTUNE

You see how the world in general and your life in particular could be better through vision of a higher truth. You have creative ability. This skill is frequently used in blending together people and situations to find imaginative solutions to

difficulties. You believe in people and in life deeply and will suffer at times because less idealistic souls will take advantage of your good will. Nonetheless, you are a force for good. Because you anticipate and expect exemplary behavior from others, it is easier for people to be their better selves around you.

SUN SEXTILE YOUR NEPTUNE

You are imaginative, creative, and sensitive to the world and to other people. You feel the world can be a better place and your vision can be sustained by your actions because you are good at blending your mental and emotional nature. You have an idealistic and artistic picture of yourself and this world. This gives your personality a quiet charm.

SUN CONJUNCT PLUTO

You have a powerful will and a dogmatic determination to get to your goal. There is a lonely quality to you that emerges from a self-imposed insulation (or isolation). Few people ever really get to know you in a very personal way. Still you find this life very productive. You keep approaching your selected goals whether it takes years, decades or even millenniums. Even you don't see how committed you are to the long-range goals until you carefully evaluate the path of decision-making in your life. There is a pioneering and self-confident aura about you that works itself out through self-reform.

SECTION III. The MOON - Your Personal Life.

The Moon inscribes a circle around the earth. It moves more swiftly than other astronomical bodies and thus represents day to day and moment to moment movements, adjustments and preoccupations. The Moon is the symbol of the personal life which is molded and shaped by our environment, by events, and by social and familial expectations. Further, the Moon shows our responses to life which are based on our past habits, experiences, our heritage and our individual and collective cravings.

The sign placement of the Moon shows how you project yourself to the general public, how the instinctive and imaginative component of your mind operates, how you express your feelings and your most general experiences of your family and mother.

The house placement of the Moon shows how and where you make day to day adjustments. Further, it shows the things you are most interested in dealing with in order to gain emotional equilibrium.

The aspects of the Moon show the general characteristics of the personality that are emphasized. Planets in aspect to the Moon are symbolic of qualities in the personality that are used instinctively, habitually and with a high degree of versatility.

MOON IN PISCES

You are a died-in-the-wool sentimentalist. Your imagination can run away with the whole personality. You need grounding through the feelings or you may fall into a negative escapism. You are sociable and very solicitous of others. People like you for you

are kind. But, you are so open to suggestion and psychically receptive to others' needs that you can lose yourself and end up dreaming other people's dreams. When you find yourself becoming lazy or drinking a lot or daydreaming more than is healthy, get yourself a daily routine of meditation and mind-training which will refocus the visualizing property in you. Then, your good intentions for others, society, God and the universe will have a tangible grounding.

Moon in 3rd house

You have deep emotional connections to your early childhood. Your memory is keen, your mind is versatile and you feel comfortable in an environment where learning is valued.

Moon in 3rd house Unafflicted

Your friends and acquaintances think of you as a good communicator. You can be very good at arbitration because you naturally empathize with several points of view. Part of you always stays childlike and attached to the pleasant memories from your early childhood.

MOON IN ASPECT TO THE SUN

Your Moon in aspect to your Sun is a central feature of your life. This aspect is the primary indicator of your basic energy. We talked about this aspect in the Section II. The Sun - Your Ego Structure.

MOON IS IN HARD ASPECT TO YOUR MARS

Outbursts of anger and emotional extravagance get you into trouble. You are always finding your limits by exceeding them.

Better to learn to think before acting. Planned intervals of strenuous physical activity can take the edge off of contentious emotions and help you obtain some deeper balance. Don't eat when upset and your health will be better. Link your energy to some humanitarian, idealistic project and your perspective widens and your life improves.

MOON SQUARE YOUR MARS

You can be a consummate initiator of any project. However, the "follow through" is always problematic as your emotions are so volatile. You are nervous a good bit of the time and emotional control eludes you as you suffer periodic explosions of feeling. Be sure your anger is correctly directed or you will destroy things that you have previously built and end up frustrated without having increased your understanding of the situation one iota. You have power but it has to be correctly harnessed in order for you to feel productive and emotionally satisfied.

MOON IS IN HARD ASPECT TO YOUR URANUS

You get great ideas but have a tendency to act on a subject with brilliant insight and partial knowledge. The accuracy of your specific perceptions successfully insulates you from needed correction by others. When you become mentally defensive you fall into a pattern of emotional instability; that encourages you to promote less than your best ideas merely to be different. You can fall into a negative spiral of being a social outcast and an iconoclast. This is avoidable through finding the part of yourself that is genuinely interested in the welfare of humanity. As you get older, your emotional life becomes more stable as a direct result of (and in direct proportion to) your ability to express empathy for people in your daily life. Big abstractions have to be practiced to have meaning.

MOON OPPOSITION YOUR URANUS

You are locked into a pattern of emotional turmoil; it is easy to blame others and to feel victimized by others' erratic behavior, selfishness, or irresponsibility. A bigger picture of yourself and life stabilizes your habits and makes life more fun. Self acceptance is the key.

MOON IS IN SOFT ASPECT TO YOUR NEPTUNE

You have a deep and abiding connection with music and art. When you are upset or feeling unbalanced; you can gain a sense of peace through music, meditation, and isolation. You are a sensitive and creative soul. As long as you are not too passive, your life has the good fortune to unfold along the path of least resistance. (Becoming too passive can mean stagnation). You are idealistic and believe the best about people. This is good and helps people, but remember to concentrate on people as they are, and not just what they might become. A lofty potential is always there but might not ever manifest.

MOON TRINE YOUR NEPTUNE

Your senses become a deep road to pleasure and your idealistic mannerisms and proposals win you an audience which you inspire. You are very sensitive and need time alone, in quiet surroundings, in order to be balanced. You have a deep appreciation for music and are moved emotionally by its color, rhythm and timbre.

MOON IS IN HARD ASPECT TO YOUR PLUTO

You easily get so emotionally "locked up" that it becomes difficult to alter or arrest a pattern once it has begun. You

can suffer a lot by cutting yourself off from others. You may end a relationship that you desperately want if you feel the other person may reject you or abandon you sometime in the future. You demand a loyalty from others that isn't only unrealistic, but is also something you are incapable of or unwilling to give to others yourself. Further, you are capable of forming compulsive attachments where you hang onto a relationship long after the other person has left you emotionally or even physically. In either of these cases, clearly you have to come to terms with the issue of power and control. Don't be afraid of not being in control. Achieve self-control, understand your own emotions and your life becomes much easier. You might explore your relationship with your mother as it had a much deeper effect on you than for most people. You have ability to work with large figures and with money and finance. You are able to conceptualize many different items of experience simultaneously. If your emotions don't get in your way, you become a leader in some realm.

MOON OPPOSITION YOUR PLUTO

Emotional standoffs block your growth. Rational compromise stops addictive and self-defeating behavior. It takes tremendous self insight to see that the things that bother you most about others are qualities of your own being. Real change in your emotional nature is not only possible but inevitable. Don't ever lose hope or indulge in thoughts of failure or guilt. Real release of old emotional habits brings instant transformation.

SECTION IV. MERCURY - Your Mental Life.

Mercury is the closest planet to the Sun. From the viewpoint of the earth it seems to dart back and forth across the face of the Sun, having three retrograde cycles a year. Mercury is the planet of your mental life. It shows how you receive, process and disseminate information. The sign placement of Mercury shows your basic attitude and mental habits. The aspects of Mercury show your scope of vision and your methods for accomplishing tasks.

MERCURY IN LIBRA

Your mind is on a quest for perfection, harmony and beauty. You are rational and fond of comparison. You look for justice. You want the right answer, the right inflection and the right emphasis. When you speak, others will see you are incredibly polished and persuasive. Be careful you don't end up as some oily, back-bending huckster bent on selling through flattery. Have a position of your own and assert it up front, as diplomatically as possible. When circumstances aren't to your liking, you make premeditated adjustments for the effect. They can be superficial or even insincere. You are easily led astray because your mind is open to all points of view. Translate this into a higher intuition; then, your open, balanced fair-mindedness wins you respect from others and many good friends.

Mercury in 9th house

You have an interest in travel that comes from a desire to expand your understanding of life. Adventure and change are always ingredients of your life. You are forever searching out new avenues of understanding, as you have a persistent drive to

find the truth. You are most successful in life when you learn to harness your enthusiasm for expansion with consistent effort.

Mercury in 9th house Afflicted

You have trouble choosing a direction but may offer advice freely to others as to what direction they should take. Be careful that you don't make promises that you can't keep.

MERCURY IN ASPECT TO THE SUN

Your mental life is very closely tied in to the core of your being. We looked at this connection in Section II. The Sun
-Your ego structure.

MERCURY IS IN HARD ASPECT TO YOUR MARS

You can be a tireless worker and powerful promoter of a cause. You like working with instruments and machinery and have some mechanical aptitude. Your temper can be problematic, getting you into squabbles and disagreements where there doesn't have to be any. You have difficulty being either a diplomat or a leader so you are best to define your own work and territory and stick to it. Learn to take a break when things don't go your way, rather than becoming angry and frustrated.

MERCURY SQUARE YOUR MARS

You "jump to conclusions". Your mind doesn't draw logical conclusions but instead reacts from your desire to accomplish a specific goal. This clouds your judgement, presents you with mental conflict, and makes you angry. To improve your mind you need to spend time thoroughly understanding your desires and

motives. You argue with those who hold ideas different than your own.

MERCURY CONJUNCT JUPITER

You have a fun-loving and optimistic outlook on life. You see the broader implications to what goes on around you and because of this you have a deep understanding of the troubles of the moment as being just that! Of the moment. Also, because of this long view of life, you don't always grasp the details of circumstances. You have a moral perspective and are concerned more with how things ought to be more than with how they are.

MERCURY CONJUNCT URANUS

You get a new idea every minute and have difficulty waiting to express it. You are truly innovative and original in your thought process. While you are nervous, you do have good mechanical aptitude. If you can get control of your hands and mind, you can be quite inventive. You have a love for technical subjects and do your best work while blazing new trails on the frontiers of knowledge. Most of your difficulties stem from situations that require you to be regular, ordinary, and consistent, conforming to everyone else's procedures. Unfortunately for you, a certain amount of traditional training is necessary or no one will understand how good your ideas really are. You have a flood of New Age information in you. You need to find a way to express it.

MERCURY IS IN HARD ASPECT TO YOUR NEPTUNE

You see more than you can do. It's as if you are being led through life responding to a voice that no one else around you can hear. People may like you a lot and yet think you are quite naive. You believe in things that others think of as make

believe. This is part of your charm, for part of you has always remained a child. You need to make sure that you know how to communicate to others based on their perceptions and beliefs, otherwise you have great difficulty belonging to a larger world than the one of your own creation.

MERCURY SEMI-SQUARE YOUR NEPTUNE

You are very creative in your thought process. You are mistaken at times about your facts - or the origin of an idea, but, for all this your imagination is good for writing and public speaking. Confusion and mental obsessions can find you wasting time. Be more careful when listening to others; then, your creativity takes off.

SECTION V. VENUS - Your Love Nature.

The planet Venus shows the way you express your love nature and what you aspire for in life as good or beautiful. Venus has much to do with how you form your values. The sign placement of Venus shows the type of love energy you have. The house placement of Venus shows the natural area of expression of the love energy. The aspects of Venus indicate how and under what circumstances you express the gentle and loving side of your nature.

VENUS IN VIRGO

Your great love in life is purity and service. You are detached to the point of being cold at times. You want to be of help to others and stabilize your own nature through established routines and rituals. You like order and perfection. When you are troubled you find peace through isolation and the avoidance of all intimacy. Your feelings don't run particularly deep but they find practical expression and you are someone who can be counted on.

Venus in 8th house

You like to explore feelings at their deepest level. You may have a tendency to express yourself in ways that are misunderstood by others. For all this, your financial picture tends to brighten at every major turning point in life.

Venus in 8th house Unafflicted

You have good luck with getting to core issues in your involvement with others. You are blessed with positive

instincts in practical matters. You learn how to extract maximum pleasure from objects and people in your environment. Repetition of past patterns brings success through intensity. This principle brings you a "roll over" of physical pleasure or pain depending on your mental focus. This principle can also be used positively to contribute to your financial success.

VENUS IN ASPECT TO THE SUN

You have an aspect of Venus to the Sun showing that you identify at a very fundamental level with your ability to express the loving, genteel side of your nature. This aspect of your nature was commented on in some detail in Section II. The Sun - Your Ego Structure.

VENUS IS IN SOFT ASPECT TO YOUR MARS

You are a good partner and a good relator. You have a positive interest in marrying and will probably settle down in a permanent relationship early in life. You have an eye for value and will do things with people that increase your net worth. You are practical and make decisions that are profitable.

VENUS TRINE YOUR MARS

You are destined to have a lot of relationships and a strong sexual attraction goes to and from you. You enjoy life and people and are intensely creative. You find fulfillment through some creative enterprise.

VENUS IS IN SOFT ASPECT TO YOUR SATURN

You have artistic sensitivity and social graces. You have good judgement with people and know what is expected of you. You

have an innate sense of obligation so you are careful about what you promise to others. You are responsible toward others once you have given your word. You are disciplined and will do well to study art or design.

VENUS TRINE YOUR SATURN

You are creative and desire some permanent form of expression in order to achieve inner comfort. You aim to get your foundations in place in life as the familiar represents stability and this gives you comfort. You like people to be stable, practical, and competent. You like things and people that you can count on. The predictable gives you pleasure.

VENUS IS IN HARD ASPECT TO YOUR NEPTUNE

You are easily led by your feelings. You are an idealist and a sensitive soul that is having a tough time getting your values to manifest. People take advantage of you at times because you empathize with others' pain. You have artistic talent but this is not meant to be a life as an artist. Consequently, you will have difficulties in youth getting reinforced for your aesthetic efforts. Later in life you will be a patron of the arts. Your artistic sentiments will come out and into full bloom in the realm of people. It takes you a long time to discover who is reliable and who isn't because you would rather believe in the inherent goodness of each person. You somehow expect that every person will have the same value system and perspective as you.

VENUS SQUARE YOUR NEPTUNE

You get fooled by others easily as you are naive and a dreamer. Although you wish the best of yourself and of life, you get off on the wrong foot at the practical level. You have artistic talent but it doesn't develop along expressive lines. First,

your artistic inclinations direct you toward understanding people. When you are successful here your underlying self expression finds some aesthetic manifestation.

SECTION VI. MARS - Your Energy.

Mars is the planet of desires. It shows how you aim at your goals and how you power yourself toward your goals. Mars represents your most fundamental wants. The sign placement of Mars shows the fundamental nature of your assertions. The house placement of Mars shows the area of your life you are most likely to focus on. The aspects to Mars show how and to what extent your desires and assertions are involved with other aspects of living.

MARS IN CAPRICORN

You have desires which are naturally aimed at worldly success or positions of responsibility and authority. You are passionate and ambitious. You are practical so your method for getting what you want in life is to be persistent, patient and to sustain your energy and interest in one direction long enough to achieve success. You are self-reliant and conscientious. Don't take on too much and strive to see more than the serious, practical side of life. You believe in yourself, now believe in others.

Mars in 1st house

You are strong-willed. You project a sense of power and vitality. You are physical in your approach to life and are a doer. If something isn't to your liking, you are apt to take some sort of action rather than just suffer or adjust.

Mars in 1st house Unafflicted

Your general enthusiasm and focus on endeavors is a winning

asset. You are courageous and a good soldier for any cause. You generally know what you want in life and how to get it.

MARS IN ASPECT TO THE SUN

You have an aspect of Mars to the Sun. This shows that you have a very strong and direct nature. Your energy and vitality are key ingredients to your self concept. This issue is taken up in some detail in the Section II. The Sun - Your Ego Structure.

MARS IN ASPECT TO THE MOON

Mars in aspect to the Moon shows that you have a lot of energy wrapped up in your instinctive consciousness. This insight is detailed out in Section III. The Moon - Your Personal Life.

MARS IN ASPECT TO MERCURY

Your Mars in aspect to Mercury shows that you have a strong desire nature attached to your thought processes. The impact of this aspect on your reasoning process is discussed in Section IV. Mercury - Your Mental Life.

MARS IN ASPECT VENUS

You have Mars in aspect to Venus. This aspect shows sex appeal and interest in romance. This aspect is covered more fully in Section V. Venus - Your Love Nature.

MARS IS IN SOFT ASPECT TO YOUR SATURN

You know how to get to your goals in life by steady, patient, and persistent progress. You have good, practical overviews of the final result of your efforts. You are good at planning a

strategy and sticking to it. You build your projects and your life with bedrock security in mind, with as little risk as possible. Discipline, patience, hard work, and the blessing of good judgement work together to form a picture that looks like "luck" to others.

MARS TRINE YOUR SATURN

You are an excellent judge of your limits and create much goodness for yourself by appreciation for what is appropriate socially and for what is permanent in life. You express yourself in a way that helps your long term projects manifest.

MARS IS IN HARD ASPECT TO YOUR URANUS

You have quite a temper and your anger will be a stumbling block in life until you have handled it. You hate being trapped and act quite selfishly when cornered. This is overcome when you corral your emotional energy and find some peace of mind. Three things aid in this process. One, you need physical exercise every day in order to feel emotionally balanced and in good health. This is a release for your nervous energy. Two, you need to come to terms with the nature of your desires. Study your own nature to see what motivates you. This allows you to not blame others for your emotions or the situations you have gotten into. Three, develop a long range view of change that symbolizes freedom to you. You are a powerful innovator and just need to re-channel your energy so that you don't have to create and experience so much disharmony.

MARS SQUARE YOUR URANUS

Angry, feisty, and combative, you make your way in life through spontaneously striking out at obstacles. You anger others who could help you. It isn't that others just misjudge your actions

(which they do) but, people perceive an inherently selfish side of the way you make choices. Learn to control your emotions and thereby your energy.

MARS IS IN HARD ASPECT TO YOUR PLUTO

You have lots of energy that erupts into violence every so often leaving you confused and exhausted. In industry, you have a taste for secrecy and covert operations. As a warrior you are more at home leading a guerrilla band in the jungle than as a general leading the parade down Fifth Avenue. You are at war with yourself. Your conscience is at odds with your desires and only long-range study and integration of your personal values can lay the foundation for smooth, comfortable, and regular energy. Until this happens, you suffer from having abundant energy that bursts forth violently, then little energy for a spell. The violence, anger, and disagreements with others stop as well as abnormal needs for secrecy (which just becomes more normal needs for periodic privacy) when you arrive at some degree of self-understanding.

MARS SQUARE YOUR PLUTO

You have great capacity to be violent, angry, pernicious, and willful. Your energy is greatly amplified and spills over into everything that you do. Your desire nature tends to run on its own if not directed by your reasoning. Discipline, reason, and correct judgement are difficult ingredients for you to use on this aspect of your nature, but, it is the path out of a deeply ingrained habit of reacting to circumstance. Work to change the focus of your energy any time your motive for acting is defensive.

SECTION VII. JUPITER - Your Values.

Jupiter is the king of the planets. He is in charge of the order of creation. Jupiter shows your values, where you feel confident and in control, and where you feel you have something to teach others. The sign placement of Jupiter shows your values in life. The house placement of Jupiter shows the area of life you feel luckiest in and the area you receive the most help from other people and from the cosmos. The aspect patterns to Jupiter show the direct network of good and administrative power in your life.

JUPITER IN LIBRA

You value everything and have great ability to see usefulness in everything and everyone. You are genial, social and a great host because you are "in tune" with what goes on in others. You value people. You are just, balanced and look for sincerity and idealism as part of the higher vision of truth. You look for opportunities with others and feel that you naturally belong in partnership. You feel that you have something to teach others about relating as an equal. You are kind and sympathetic to others and feel that their concerns are interesting and worthy of your attention. Your sense of justice and appropriate balance gives you a natural talent in art, mechanics, architecture, law, politics, teaching, mathematics, drama and hundreds of other fields involving proportion and symmetry. You are a master at being able to infer the whole from seeing a small portion of an object, idea, ideal, or picture. You see opportunity everywhere because you see potential everywhere based on your ability to extrapolate and infer. Your higher vision of truth is constantly relating ideas to ideas, people to people, and people to ideas. This imaginative quality of yours is the source of great talent, great luck, and great vision.

When you learn to focus this talent toward a specific goal, this life becomes very productive. Without focus you still have charm and graciousness that helps you make your way in life.

Jupiter in 9th house

You are inherently high-minded. You have an open value system. You are willing to learn from others and expect they will be willing to learn from you. You benefit through long distance and foreign travel. You plan well for the long run. Being a visionary, you know how to express yourself in ways that go beyond just the transport of mere information; you always have a point that you wish to impart. Your communication skills are useful in anything requiring advertising, (maybe even propaganda) for you are the conveyor of images.

Jupiter in 9th house Afflicted

You see blue skies but get stuck in the mud. Your long range picture usually lacks a transition program. Keep your mind focused on the things that are immediately present in the "here and now" while keeping a lofty vision of things possible that haven't yet come into being. Then your ideals may serve you well. The danger here is that your high mindedness can be responsible for taking you into some form of wishful thinking, avoidance, or just plain escapism. Life is easier if you do some reality testing of your aspirations.

JUPITER IN ASPECT TO MERCURY

You have Jupiter in aspect to Mercury indicating a deep commitment to communicate something of value. You will have a commitment to knowing the truth and conveying it to others. You will find some further information on this topic in Section IV. Mercury - You Mental Life.

JUPITER CONJUNCT URANUS

You are a freedom lover and have great expectations for yourself and for life. You are lucky because you fully expect the good. You can be very argumentative because you have a tendency to grasp very big abstractions, but from your own limited perspective. This lends itself to fanatic and lopsided presentations of your beliefs. You are prone to letting nervous pressure build up inside until it comes spilling out in some abrupt breakthrough of symbolic activity that changes the perspective in your life from stagnant to exciting. This oscillating rhythmic cycle pushes you from exhilaration to nervous pressure and back to ecstasy. It is important that you stay in touch with this periodic change in order to maximize the efficient use of your energy.

JUPITER IS IN HARD ASPECT TO YOUR NEPTUNE

You feel lucky and that gets you into trouble. You get overextended and into financial hot water before you know what has happened. Being gullible and naive, you suffer through believing in your own fantasies. Because you are kind and sympathetic, you go out of your way to help others. But here you can suffer through poor judgement as to what will be of real and lasting help. The way out of this confusion is not to be less idealistic or less sympathetic, but instead to be more long-term in your vision. Ask yourself what will be important 10 years from now in your immediate considerations. Taking the long view of yourself and of life is an acid test for moment to moment decisions.

JUPITER SEMI-SQUARE YOUR NEPTUNE

Misperceptions and over-optimism can throw your judgement off a

bit. On the other hand, you're extremely fortunate and many of your projects have positive results even though your reasoning process and understanding are not always "in tune" with your direction.

SECTION VIII. SATURN - Your Obligations.

The planet Saturn shows where you feel restricted. You feel obligations and fears through Saturn. Because of your feeling connected with Saturn you are either responsible or neglectful. The sign placement of Saturn shows the basic type of energy connected with your obligations. The house placement of Saturn shows an area of life that you feel restricted in and work hard to obtain the things that come to you. The aspects of Saturn show the most direct involvement of other areas of your life with your feelings of responsibility.

SATURN IN TAURUS

You fear not having money or being dependent on anyone else. You are solid, practical, trustworthy and thrifty. You defend yourself against the outside world by racking up material success. You are security-oriented. You can become too stubborn and cut off from others. When life becomes too premeditated you need to break the tyranny of thinking that you are your possessions. Have more fun!

Saturn in 4th house

Your family has given you a legacy that makes it hard for you to have more than a very limited horizon. Your negative expectations can be self fulfilling prophecies which are ultimately based on an inadequate self picture. You need to overcome worry about your own future. A deep seated caution in your emotional life prevents you from opening up to others very quickly. Consequently, you need to move slowly any time that you are making fundamental changes in your security network.

Saturn in 4th house Unafflicted

You learned early in life to become self-reliant. You spend quiet time by yourself periodically and are able to use your own troubles in a way that builds solid understanding with people in difficult situations. You build on cautious foundations. Progress is a constant balance between hard work and certain knowledge that your aim has to be high, as life can't promise you very much if your expectations are low.

SATURN IN ASPECT TO VENUS

You have Saturn in aspect to Venus which shows that you take your love nature seriously and that you have a strong sense of duty. This is taken up in Section V. Venus - Your Love Nature.

SATURN IN ASPECT TO MARS

You have Saturn in aspect to Mars showing a desire to build strong foundations in your life. This aspect of your nature is taken up in Section VI. Mars - Your Energy.

SATURN IS IN HARD ASPECT TO YOUR PLUTO

You have some deep fears that color your perceptions of what is possible in life. Your negative attitudes toward yourself and life create real problems for you getting to your goals. You may attract anger or violence from others as a by-product of your fears, or express your own, as frustration and blocks bubble over. You have a tendency to "block out" anything that you fear and can't control. Courage and persistency of effort eventually bring an easier pattern in life.

SATURN SESQUIQUADRATE YOUR PLUTO

You may feel victimized by circumstances. It is easy to feel frustrated when you realize that everything you try to do requires more energy than you thought it would. Tremendous energy is required for success in life but it is achievable. It is possible to create great things in life, but for you it always requires deep self-transformation.

SECTION IX. URANUS - Your Search For Freedom.

The planet Uranus is beyond the orbit of Saturn and can't be seen without the aid of a telescope. It represents the sky in us, that which transcends the limits of finite life. Uranus raises the vibration of everything it contacts. The sign placement of Uranus shows your broadest striving for freedom. The house placement of Uranus indicates your area of direct unique expression. The aspects to Uranus indicate the way you express your need for higher consciousness.

URANUS IN LIBRA

You have a special genius for getting involved in unusual relationships. You may supply leadership or just be a member of the team, but you really come into your own in cooperative efforts.

Uranus in 9th house

People think of you as a real individualist. Your mind has no horizons. You see all as possible. You love experiences and may love travel for this reason. Your path of growth has to include mental enrichment.

Uranus in 9th house Afflicted

You tend to make yourself an exception to all the rules. Your personal philosophy can be widely tangent to the rest of the world. People don't understand you and often don't care to. Strive to make your world view fit in more with others. Be empirical rather than retreating into your own universe.

URANUS IN ASPECT TO JUPITER

You have Uranus in aspect to Jupiter showing that you have a big vision of what life can be at its best. How this works out for you is discussed in Section VII. Jupiter - Your Values.

URANUS CONJUNCT PLUTO

You have a compulsive and unconscious desire to change. There is a revolutionary quality to the way you go about bringing change in life. Years can go by relatively peacefully and then all of a sudden there is an explosion in your life. When the dust settles all goes well again but you and your world are never the same. Real change is always fundamental.

SECTION X. NEPTUNE - Your Spiritual Aspirations and Ideals.

The planet Neptune has an almost perfectly circular orbit. It represents the part of our nature that strives for perfection, that looks to some higher ideal. The planet Neptune rules the ocean and the part of us that is beyond the limits of the shores of personal existence. The culture moves with the cycles of Neptune and it is the primary indicator of your connection to the culture that you live in. The sign of Neptune shows an ideal that you desire to manifest. The house placement of Neptune shows the area of your life that you want to express this ideal in. The aspect patterns of Neptune indicate the most direct connections yet most subtle networking of your personality into the world at large.

NEPTUNE IN SCORPIO

You have powerful and unconscious impulses for sensation. You wish most of all to keep a social ideal alive through emotional intensity. You struggle to work out your secret desires.

Neptune in 11th house

You are an idealist but may expect too much from friends. You like friends who are intuitive and artistic. You admire people who can add a new dimension to your own reasoning and have the ability to effect change in others.

Neptune in 11th house Unafflicted

You bring an attractive, higher outlook to your social life. On the other hand, because of this it is quite difficult to be "one of the boys" because you have a deep need to uphold a higher

standard. Until you become truly comfortable with yourself you may feel quite lonely.

NEPTUNE IN ASPECT TO JUPITER

You have an aspect of Neptune to Jupiter. This indicates that you have a lofty vision of the possible in life and that you attract good things by this expectation. How this works out for

you is shown by Section VII. Jupiter – Your Obligations.

NEPTUNE IS IN SOFT ASPECT TO YOUR PLUTO

You are fundamentally an idealist. You would like to see change come about in a way that doesn't destroy the existing social order. You believe in transition and transformation as saner and kinder principles of social change than revolutionary upheaval.

NEPTUNE SEXTILE YOUR PLUTO

Your higher ideals are the continuous recipient of forceful energy for change. Your long range perspective (even though this may at times be unconscious) is always toward your ideals winning out through deep self transformation.

SECTION XI. PLUTO - Your Need For Fundamental Change.

The planet Pluto represents the dark underground part of you. It shows your ability to transform the most fundamental properties in your own inner nature. The sign of Pluto is the way the obsessive, compulsive and committed part of your nature expresses itself. The house placement of Pluto shows the area of life where you make your most fundamental and most potent changes. The aspects to Pluto show the deepest most unconscious links in your personality structure.

PLUTO IN VIRGO

At best, you have critical powers to discriminate between that which works and that which doesn't. There is a striving for perfection at the core of your being that can narrow your horizons so far that you focus too much on basic issues connected with your own life. At worst, you are so critical that you slow down everyone's effectiveness. Patience and hard work are required in order to complete your personal transformations.

Pluto in 9th house

You have a great desire to expand your horizons and your general knowledge. This can lead you to travel, study religion, philosophy and ethics, and do some deep soul-searching. There is an adventuresome quality to your nature that is almost never at rest.

Pluto in 9th house Unafflicted

When you talk, others listen. You often only reveal your inner

thoughts when you are in close, private company. Then, you "draw a bead" on the most important issue and express yourself in terse but captivating phrases. You have qualities that can inspire in any teaching situation.

SECTION XII. SUMMATION.

A. YOUR UNIQUENESS

Part of your style of being a person is tied to your personal method of adapting to and interacting with other people. This aspect of your personality shows itself through every aspect of how you deal with the environment. This method of your being encourages as well as reveals your uniqueness.

YOUR MAJOR PLANETARY ASPECT IS A SQUARE.

You have lots of energy and you need it. Your life changes through the resolving of conflicts. You are a fighter and you get clarity by drawing lines between the perceived good and bad of the moment. Your inclination is to be action oriented first, and reason things out after the battle. Your hunches are based on the odds. You take an empirical approach to problem solving. Your keyword is Energy.

B. YOUR EASIEST AREAS.

The following material is an index of things that you have developed as inner resources. You may take them for granted, but in times of reevaluation and rest this part of your personality can provide you comfort and strength.

Mars in the First House.

Your responses to life are immediate and energetic. You do your best work through adopting a "take charge" attitude toward your circumstances. Acting personally and physically usually the best strategy for you to materialize your thoughts.

Mars in Capricorn.

You have ability and a natural knack for seeing opportunity before it will occur. Your stamina is very strong and your timing is impeccable. Your greatest asset is that you know what you want and are willing to go for it.

Jupiter in the Ninth House.

You have a natural adaptive mechanism in life that stems from your ability to draw on things faraway in time and space. Confidence is your secret key. When you have complete faith in the universe to do the right thing your success is secure.

C. YOUR MOST PERSISTENT DIFFICULTIES.

This material describes the "cutting edge" of your work on yourself. The thoughts rendered here are meant as further guidelines for growth. You should take difficulties and challenges in the right spirit. They are always positive indicators as to how you can experience the joy of becoming a better person and more like your REAL SELF.

Afflicted Mercury

You suffer because you draw the wrong conclusions from your perceptions. There are several ways of breaking out of a negative picture. You can ask other people's advice as to your present course of action in life, you can strive to be more empirical in your observations, and you can look for a consistent pattern in your past actions. Through expanding your perceptions, you can break out of a self-limiting mental bubble.

Afflicted Jupiter

Your values are lopsided so your energy and judgement is off. Overcoming pride, waste and unrealistic expectations creates the pathway to a more stable value system. Your life improves when you are able to corral your aberrant need to feel that you "belong". Things improve when you are able to establish a self picture based on your own approval rather than public acceptance.

Afflicted Uranus

You have a habit of expressing your uniqueness at the wrong moments and in the wrong way. Unhappiness and a feeling of isolation are the end products of your actions that you were hoping would lead to freedom. True freedom comes through responsibilities, not by escaping them. Develop creative outlets for your energy that will not run counter to your basic good will to others and your true responsibilities follow you naturally.

Sun in Libra

Your love of other people and a romantic urge carries you away from the here and now. Your energy and stamina can ebb and flow to such a degree that others don't know whether or not to rely on you. Practice consistency.

Mercury in the Ninth House

Bend your perceptions toward the big picture without leaving the day-to-day details undone. You can be visionary if you avoid the grandiose.

Venus in the Eighth House

You find beauty in the bowels of life rather than on the surface. This gives your personality great depth of character but it also leaves you vulnerable to missing the joy others experience in simple pleasures. Expand your outlook and commonize your experience. Then, your depth will have meaning.

Venus in Virgo

You are service-oriented in your expression of love for others, for you wish to be of help. But, you need to feel better about yourself so that you can give and receive love based more on who you are, and less on what you do.

Saturn in the Fourth House

You have to overcome self-limiting fear. You are very able, but you get in your own way because you have poor expectations for the results of your actions. Believe in yourself and life, then your fears just become common sense.

Pluto in Virgo

You suffer in the process of self-transformation because you have difficulty in making the decision to change yourself rather than changing circumstances in your life. Get more basic, change your attitudes and habits and life becomes much lighter.

D. THE GROWTH ASPECTS

The Growth aspects operate differently than other aspects in your chart. While it is possible to use them descriptively, as

showing finer shades of meaning within the chart, we wish to use them in a different manner for our purposes. The growth aspects are tools of self development. If you apply attention to the various qualities in your nature linked through the growth aspects, you will see positive change over time. These qualities generally do not show quick effortless solutions, but instead show a path of change requiring exertion and emotional honesty. Under these circumstances, the way these aspects of your nature change through time are truly amazing. The qualities mentioned here can be the very mechanisms to release the highest, finest side of your nature.

Sun Semi-Sextile Venus

The quest for beauty can lead you away from a path of personal development. This is because the object of your search in life seems to you to be substantially different from what you find as your own inner resource. Through self observation you come to realize that it is the beauty in you that perceives the beauty in the world. True progress for you can be won through achieving a balance between your own inner drives and what you see in other people that you judge as significantly different from what you find in yourself.

Moon in Growth Aspect to Venus

The receptive and gentle side of your personality is always looking for an appropriate expression. You learn by trial and error how to relate your sensitivity to others without invoking disappointment or rejection from them. Learning how to receive what others give you freely requires work on your behalf.

Moon Quincunx Venus

The frustration you experience in life often comes because you

get what you ask for from other people (and life in general). Unfortunately, what you ask for isn't what you want. Partly, you are slowly learning better communication skills, and partly you are learning to understand your own deeper cravings as they are. You see the unacknowledged and undigested parts of your sensitivity and creativity present in others, but, these are really projections that you have to own within your self if you are to change for the better.

Mercury in Growth Aspect to Saturn

You worry about things that can't affect you and that don't matter. If you are patient and use time correctly life improves. You will need to study your mental habits to see how you limit your options unnecessarily. Slow progress is vastly different than no progress. Your growth in life gains speed when you are able to separate real limits from your fears.

Mercury Quincunx Saturn

Putting your life in order will require exercising positive judgment as to how to get the large projects you envision to manifest. The sheer scope of your goals in life can require more effort than is immediately obvious. Hard work can take its toll on your health. Correct partitioning of big ideas into segments that are achievable one at a time and exacting uses of your time is the way to move forward while maintaining inner poise and outer health.

Venus in Growth Aspect to Uranus

Erratic expression of the loving side of your nature makes it hard for you to be very close to others, but, it does supply you with interesting and exciting moments of interaction. First, you learn to see the periodic disturbances of your routines as

part of the enjoyable fabric of your life. Next, you learn that the new information presented to you through the occasional disruptions as an unconscious method for you to know yourself and see the higher possibilities in your own love nature.

Venus Semi-Sextile Uranus

In your enthusiasm to add more sparkle to your expression of love and beauty in life you alienate people, lose your audience and destroy the goodness and continuity of your everyday relationships. Personal growth comes as you learn how to preserve what you have without ossifying it. Innovation within known guidelines stops you from "throwing away the baby with the bath water".

Saturn in Growth aspect to Uranus

Feelings of limitation can stop you from expressing the newer insights that occur to you every so often. The struggle that you go through in life will often center around your fears of being left out of activities that you see others participating in. You will have to reevaluate your feelings of responsibility every so often to overcome the feeling of self denial that you put yourself through. Growth often comes by getting down to the roots of your personal insecurity and self limiting behavior.

Saturn Quincunx Uranus

Outward achievement may take the place of inner development until you learn to monitor your needs, obligations, and desires. Setting reasonable limits on how much of your energy goes into any part of your life takes a good deal of effort and navigation, but, this is necessary to be as successful as you would like to be.

E. THE DECLINATIONS

There is another dimension to your astrology chart. This has to do with planets being the same distance from the celestial equator. When both planets are on the same side of this plane there are called parallel. When the planets are the same distance but on opposite sides of the celestial equator they are referred to as being contra-parallel. Both of these aspects activate your ability to organize and reorganize some aspect of your life.

Sun Parallel Uranus

You are not content with an ordinary life. Something in you is always "stirring the pot" so to speak. You believe that life can be better and you will do something to get this point across to others while also doing something to tangibly improve your own circumstances. Sometimes you need to learn to leave "well enough alone" as your constant fussing can create difficulties. Still, your originality and spontaneousness gives color and accomplishment to your life.

Venus Parallel Saturn

You have real difficulty in expressing the joy of life, but you do have quite an ability to hold yourself to a commitment once made. The difficulty here is learning to accept limitations and restrictions. Once this is accomplished you easily give of yourself to help others. "Real happiness lies in making others happy." To learn this is to find your joy.

Jupiter Parallel North Node of the Moon

Your personal growth is dependant on your ability to think optimistically and creatively in every situation. Other people

are in your life to assist you and when you see this as a philosophic principle and embrace it honestly, a lightness and joy colors the landscape along your life path.

Sun Contra-Parallel Moon

You will integrate the early habit patterns from your childhood into the core of your personality. Until this happens you will have many changes in your life pattern. On the other side of this adjustment, you are a very stable personality upon which other people can depend. You possess great strength that is not always evident to others.

Moon Contra-Parallel Uranus

If you have consistency in your focus and actions in life (and this is a big if) then you have the facility to help others improve their method of relating emotionally. You have a propensity for living in an exciting, adventuresome, and creative vision of the world.

Venus Contra-Parallel Midheaven

Pleasant physical surroundings are an important part of your forward motion in career. You have a mission in life to create harmony, and generally you are successful over the long haul. The way others approach you has a deep effect on how you feel about yourself and your position in other people's lives.

F. YOUR KARMIC DIRECTION

The Moon's North Node is an all encompassing and instructive point of synthesis in the chart; we could easily start or end our analysis with this one single factor. Because this

indicator is so all inclusive it most shows your karmic direction in life. The sign placement of your North node points to your destiny. When your actions, interests, and values are structured by this position, your general sense of personal well being improves. The house placement of the North Node of the Moon indicates or points to an area of life, an arena of experience. By confronting, even augmenting this arena you can inadvertently improve every aspect of your life. By dealing with issues connected to the North Node placement in your chart your general character strengthens and refines.

North Node of the Moon in Pisces

Growth comes by expanding your faith in positive spiritual principles of living. Your natural inclination is to analyze and label everything; matter of fact, you over-analyze. You need to grow beyond this trait through developing trust in the inherent goodness of the way things happen. Human relationships improve through believing in people and seeing their positive attributes. As you augment the ideal factors in your dealings with others you become more emotionally satisfied with your own life.

North Node of the Moon in Pisces and in the Second House

Be imaginative and you will come up with many ways to better your self-image. Feeling good about yourself is necessary in order to get completion on key projects. As you accept yourself more, your acceptance of others and even life itself grows. As you achieve an openness and faith in life, your compulsive behavior gets less and less.
