Mercury Stationary Retrograde in 01st House

This begins a three-week period during which you have the opportunity to refine and perhaps repurpose the way you project yourself in your surroundings. Round off the raw edges and pull in any potential entanglements that might be slowing you down. You have not only the right, but sometimes the obligation, to change your mind in order to insure consistency and personal impact. Toward the end, this may particularly include tightening up solutions to previously resolved issues to be sure they are well in hand. When you've got all your ducks in a row, you won't have to look back.

Mercury Conjunct Ascendant (Retrograde)

Just when you thought you were home free, someone called time out and now you have to rework your game plan and refocus your approach. Mercury backpedaling on your Ascendant means you will have to touch up your personal presentation and make sure you are leading with the best -- and the most truthful -- game plan. What may seem like reversal is only delay, and you'll be glad in the end that it happened, giving you time to clear previously overlooked stones from your pathway. Once past selective makeover, you will find your image successfully bears scrutiny at every level.

Mercury Stationary Direct in 12th House

If loss of communications has left you clueless, you can start collecting more reliable evidence again. When exterior sources fail to provide the information you need, you may have to rely on your inner resources and come to your own conclusions without external input. However, if you can avoid tying yourself down, that would be a better choice, as things may be going on without your knowledge that will surface soon and give you a better handle on your operations. When the mist clears, you'll have the opportunity to really make yourself seen and heard.

Mercury Conjunct Ascendant

Mercury making its turnaround on your Ascendant can give you the opportunity to be the person with the first word in -- the solution-maker -- if you let it happen. Don't be afraid to chime in with new ideas, even if there has been a lot of confusion of late, because now is the time when resolutions finally become available and forward motion can begin again. People

will tend to look to you to be the instigator, so don't disappoint them, let your ideas out of the box where they can do some good. You may not get everything you want, but you'll be first out of the gate, and the beginning is half of everything.

Mars Stationary Retrograde in 05th House

This period can be fun and profitable if you are willing to try multiple efforts and not expect them all to finish. A creative shotgun approach where you go with the best of many tries may be taxing, but you'll likely come up with a winner in the end and have several more half-developed possibilities for later. This is not a time to put all your eggs in one basket, but rather to sample eggs and baskets and see which suit. Keep a positive attitude and a tight inner focus and you'll thrive where others lose their way. Readvancing the principles you have already established for yourself allows you to play strong but easy.

Mars Conjunct Mercury (Retrograde)

Brilliant flashes of insight and problem solving may suddenly require a second look as Mars backs off your Mercury. Easy solutions will take a bit more work until they can be hammered into workable pathways to success. Mental effort can tire just as easily as physical, however, so don't beat your head against obstacles that don't respond on first approach, but be willing to try, try again with smaller steps until it all comes together. Instant results are less important (and less likely) than final triumph over the long haul. Headway in the smaller leads to the greater good.

Mars Stationary Direct in 04th House

After a period when attempts to shore up and develop your underpinnings may have gotten you the runaround, you'll find that selective attempts to make your castle stronger will meet with success and applause. Pick your projects and don't scatter your energies and you'll find what seemed like swimming upstream will become a walk in the park. The key is to get in touch with what is important to you inside and let your outer efforts reflect your inner strengths. Draw on your fundamental capacities to jumpstart a specific initiative and playing the game will become a breeze.

Mars Conjunct Mercury

Mars launching forward on your Mercury should set mental sparks flying and energize solutions to previously puzzling problems. However, the urge to smash idols and cut the Gordian knot should be tempered with second thoughts, as there's no turning back once you burn a bridge behind you. Remember that things are only just coming together and it still may take some work to get the kinks out before you go for full throttle. Burning the midnight oil should come more easily now, even to the point of difficulty in turning your mind off when you need to take a rest.

Mercury Stationary Retrograde in 04th House

The next three weeks may cause you to step back and rethink your course and reset your bearings to make sure you are really on the course you intended. Do not hesitate to question fundamental values in order to get to the heart of what you believe and resolve inner conflicts

that may arise. Small insights can net you large gains, particularly in the future stability of your ship. Rock your own boat before others do, and you'll be the better off for it. By the end, you may find risk reevaluation highly useful, particularly when you depend on others to evolve into what you will lean on in the future.

Mercury Conjunct Sun (Retrograde)

Mercury's reversal directly on your Sun is a road sign for coming reevaluation of your fundamental energies, the way you project yourself from the inside out. Perhaps it is time to again put to words and rephrase just what it is that you're all about, and fine-tune your inner beacon's lens so that your light shines more clearly on the world. The message is: Don't take yourself for granted and don't let precious resources sit idly by when you can put all your balls in play. Don't just deal from a full deck, but from a full and knowing heart, without reservation.

Mercury Stationary Direct in 03rd House

Several weeks of greater confusion than you'd have liked are on their way out and you can get back to what you were doing with a bit more confidence and sense of purpose. Getting roadblocks out of the way allows you to chart a surer course and feel better about what you are doing and what kind of commitments you can make and live up to. Red herrings and detours can be put behind you as you get back onto a map everybody can buy into. The cost of delays and uncertainties is made up for by knowing that they no longer impede and that you can now throttle up and get on some real speed.

Mercury Conjunct Sun

Mercury turning back to action on your Sun means this three-week period of reshifting is best rid of through the sheer force of your personality. Where things had gotten tangled, a willing smile and a positive attitude will cut through the confusion and clear up misunderstandings. Where you might have done well before to delay and see which way the wind blows, now you can be the wind itself and blow away the mists that may have limited visibility for all concerned. Don't expect instant sunshine, but you can count on clearing skies and relieving rays to decorate the coming days.

If you can spend the next three weeks redeploying your debts and reallocating resources, you will not regret it. In fact, it may simply be a necessity to pick up loose ends and take a second look at whether you are unnecessarily overextended. With a little tweaking, you could be sitting in the catbird seat, but you'll need to test the wind to get some height. Pick up on assets you've neglected or forgotten about, and you'll have all you need. Make new friends, but keep the old; one is silver, but the other's gold -- in ways you hadn't even thought about.

Mercury Stationary Direct in 07th House

As you turn the corner toward clarity after a few weeks of unasked-for change, you realize that no one was to blame. What seemed like mistakes were simply different roads to the same destination and it's clear that keeping your eye on the ball and not on the pitcher is the only way to go. Resolving differences is the surest way to a strong partnership, especially when driven by a common goal. You can look forward to a backward look that may give you a boost in the coming month or so, so keep those eyes in the back of your head wide open. Tomorrow's prize lies in the hand of another, so be ready to shake it.
