The longer the bar, the slower the aspecting planet and the longer the aspect's duration.

01 Jan ♁ △ ♃ 04:43 pm EST Arc-Nat  06°♁49'

12 Jan ♃ △ ♀ 11:24 am EST Tran-Nat  05°♁40'

A leap of faith will cross many a boundary and unite former foes -- and this is the time to do it, fueled by a special inner confidence that is now available. A strong word of support, based on your own willingness to stand behind your commitments, will change uncertain ties to lasting friendships.

15 Jan ♃ △ ♀ 08:47 pm EST Prog-Nat  05°♁40'

Taking firm but non-confrontational stands on how you feel about issues will not only give you the upper hand but create a following. Quiet faith in your position says more than a thousand verbal arguments, so simply proceed like you know you're in the right and your stream will become the mainstream.

21 Jan ♃ △ ♃ 04:14 am EST Tran-Tran  07°♁37'

You are in a roughly yearlong period in which the world at large is, in the deepest sense of the word, coasting. There is a great faith that God is in his Heaven and all is right with the world, which is, as often as not, totally unfounded, a disillusionment often met the following year. But, for the moment, in the background all appears to be working smoothly, both economically and morally. This makes for profitable enough short-term actions, as long as you can pull out quickly. The real personal bonanza may be had by searching out the coming shift that changes everything and putting all your financial and moral assets on it.

25 Jan ♀ ♂ ♁ 11:27 pm EST Tran-Tran  00°♁00'

Sixteen years begins of a culture value shift toward getting business done as if it were a mission. It will create vast wealth, as it will have little to hold it back morally - but the generation spawned by this period will have to redesign the great structures so made in a deconstruction of what went before. Like when cement skyscrapers were first built - they were touted to last longer than the pyramids, but a generation later they began to fall to the wrecking ball.

27 Jan ♃ ✖ ♀ 09:35 am EST Tran-Nat  08°♁58'

This is a good time to find ways to implement your personal beliefs in a way that is practical, satisfying, and unobtrusive to others. No need to soapbox, just a quiet word or two will be enough to get the ball rolling. After an initial thrust, truth and conviction will carry the ball.

29 Jan ♃ ♂ ♀ 03:10 am EST Tran-Nat  09°♁21'

Making up your mind is the problem and the solution may very well be not to do it at all. A good time for letting disparate elements split apart naturally and let each take their own natural path. When in doubt, reserve judgment and let each of your own diverging opinions have its own deserving place.

17 Feb ♃ ♂ ♀ 08:07 pm EST Tran-Nat  05°♁40' R

This is likely to be a time of considerable deep introspection and even depression, during which you meditate upon the meanings of death and the limitations put upon us by worldly

existence. Rather than bemoaning your hard case, take it as a time to confront and better understand these total issues.

- 28 Feb ♀♂♃ 05:39 pm EST Tran-Nat  22°≈23'
Your inner world and intuition tend to conflict with outer realities right now. You might do what you can to separate the two, tending to one for a while and then giving the other a turn. There is no point in neglecting parts of yourself; just divide things up to avoid needless conflicts within.
- 01 Mar ♃☐☉ 00:54 am EST Tran-Nat  18°≈12'
A year of somewhat grating, irregular personal change is in store, where stops and gos tend to conflict, making it hard to keep your patience. Be ready to make what later are seen to be pointless changes and chalk them off to experience, in this capacity they will be invaluable. Keep your temper.
- 24 Mar ♃△♀ 09:37 pm EDT Tran-Nat  02°≈58' R_x
Now is the time for making long-term financial and emotional investments, as you are more than likely to get as much or even more than you bargained for. Take the opportunity to secure as much as you can so that you will have something spare when opportunities are rare. Hedge your bets!
- 28 Mar ♃≈♃ 08:09 pm EDT Tran-Tran  19°≈47'
It's a good time to invest in mutual discovery, where what you stumble on somehow perfectly dovetails with what just fell into your partner's lap. You don't need to push or pursue the far-out to go really way into yourselves, and you'll probably even have a little help from your friends, because right about now they're probably doing it, too. This can apply to the boardroom or the bedroom equally, as subtle inspiration and small "aha!" revelations snowball to give everyone a totally new view on an old subject and reinvigorate flagging energies and interests. The key to success: Be aboveboard, don't go overboard. Share what's given, expect the same.

- 06 Apr ♃≈♃ 07:54 am EDT Prog-Nat  08°≈58'
If intuitive feelings run strong, you can probably count on your hunches and go with what your insides are telling you. It's not a time for big gambles, just follow the small voice that's speaking wisdom which may be hard to put into words. Follow the tide, it's running your way if you just trust it.
- 15 Apr ♃♂♀ 12:20 pm EDT Prog-Nat  09°≈21'
Sometimes you have to justify your reactions, but painting elaborate inner landscapes may only spin your wheels, so go with your head or with your heart but don't try to make them match too carefully. It may take some time to iron out internal inconsistencies, but in this case time is on your side.
- 01 May ☉☐♀ 06:41 pm EDT Arc-Nat  02°≈58'
You can find that you don't know exactly what you want right now -- or, rather, you think you do but you keep changing your mind. That can apply to everything from a meal to a marriage, so don't generate a bill that you might regret paying for. This is a time for eyeing the goods

and then moving to the next choice for another glance.

- 13 Jun ♃ ♂ ♂ 11:03 pm EDT Tran-Tran  00° 03' 00" R_x
 A period of some cultural self-righteousness has arrived, in which the search for homespun, unadorned truth too often leads people to think they've actually found it. A lot that is good comes from this rough-and-tumble period, but it spawns a generation that often seeks opulence over compassion, and thinks that is their just reward for imagined righteousness.

 Slowdowns in certain more personal matters may be cutting you some slack so you can seize an extra edge in your career efforts, although you may not have noticed it yet. It may be well to avoid pursuing temporarily unchangeable issues and take action in other areas while you've got the down time.
- 12 Jul ♃ ♂ ♀ 10:15 pm EDT Tran-Nat  05° 17' 40"

- 11 Aug ♃ ✖ ♀ 05:34 am EDT Tran-Nat  08° 11' 58"
 You may find that your fantasy life is seeing some external support, making this a good time to go gently out and try to make some dreams come true. Just sort of slip them into reality, don't push, and you may find they grow with a life of their own. Be willing to trim them to fit reality a bit and they'll blossom.
- 14 Aug ♃ ✖ ♀ 07:10 am EDT Tran-Nat  09° 11' 21"
 This is a good time for careful, precise thinking and judgments, though not necessarily earthshaking decisions. Tag on to what you've decided is correct and pursue it clearly; your abilities to express it will see you through. Logic will seem self-evident and you won't have to go over things twice.
- 30 Aug ♁ ♂ ♃ 09:48 pm EDT Arc-Nat  29° 13' 07"
 It may be a particularly good time to take a second look at your resumé and rethink the image of yourself you are sending out. You can profit from being painted in a more conservative light, or conservatives can paint out your profits if you are not careful. Not a good year for taking risks in this area.
- 01 Sep ♀ ♂ ♃ 12:50 pm EDT Tran-Nat  22° 23' 18"

 Events which require marshalling extra inner energy and resources tend to go awry and use up psychic fuel without bearing much fruit. It's easy to chase your tail and just get mired in deeper, so you're better off keeping to yourself and letting things be for a while, despite temptation to jump in.

- 04 Nov ♃ ♁ ♃ 08:34 am EST Tran-Tran  18°♎58'
This rare (once in 45 years) aspect provides a background of a year or so when new advances in theoretical science occur which take a longtime proving, thanks to an often-intransigent scientific establishment. Relativity theory and chaos theory are two good examples; both took years to become thoroughly accepted and a part of the general consciousness. If you happen to know what they are, it probably profits you little, except you can tell your children you were there first, when they finally get hip to it. Nevertheless, it's worth looking around for, as the foundations for another wave of the future are being laid at this very time, no small thing.
- 08 Nov ♀ ♃ ☺ 00:03 am EST Arc-Nat  18°♈12'
It's increasingly nice to be you, and you may be quickly becoming your own greatest admirer. When all you need is to be you, you're one up on the rest of the world and it gives you a glow of satisfaction that makes you an object of desire. When you applaud yourself, the world follows suit.
